Every project in detail

PROFILE

I design products and mechanisms, from the first sketch and CAD model to a working prototype. I care about how something is made, what it costs and how it feels to use. Next to my master's at Ghent University, I run Euphoriax, the software studio I co-founded in 2024.

EXPERIENCE

Intern · Niko — Jan 2026 – Jun 2026
Niko Hush: a modular socket concept, designed for flexible and circular access to power in changing interiors.

Intern · Sonaca — Jan 2026 – May 2026
Orbitec: a passive mechanism that deploys a satellite's solar panels and antennas, designed for additive manufacturing.

Co-founder · Euphoriax VOF — Feb 2024 – present

- Software studio with Rune Vanhoucke, next to our studies: tools and systems that help creators build games in Fortnite, plus commission work for brands and agencies. 500+ paying customers and 10,000+ users worldwide.
- Virtual Donors with AKQA Brussels for Reborn to be Alive: game design and development of the Fortnite experience, awarded a Clio, a Webby and an Effie.
- Everything from product and marketing to negotiating, bookkeeping and managing freelancers, all in English.

Board member · Youth house De Sortie, Nieuwpoort — 2021 – 2025
Budget, events and festivals, social media and training new volunteers.

EDUCATION

MSc Industrial Engineering: Industrial Design — 2025 – present
Ghent University, Campus Kortrijk

BSc Industrial Product Design — 2022 – 2025
Howest, Kortrijk · magna cum laude

Industrial Sciences (secondary school) — 2018 – 2022
VTI Veurne

AWARDS

2026 **3rd place in category, Tectonic Hackathon** · Graffify, SD Worx challenge, 800+ participants

2025 **Winner, Agoria AM Design Challenge** · Orbitec, for Sonaca

2025 **Ecodesign Award, Business Potential** · U:NIT, OVAM and Vlaanderen Circulair

2025 **Clio Silver, Webby, Effie Gold** · Virtual Donors, with AKQA

2022 **4th place, Prijs Focus Aarde** · City Feelings, King Baudouin Foundation

SOFTWARE

CAD AND PARAMETRIC
Siemens NX · Fusion · Rhino · Grasshopper

RENDERING
KeyShot

ADOBE
Photoshop · Illustrator · InDesign · Premiere Pro

OTHER
Figma · Unreal Engine

SKILLS

Product design and concepts
Design for manufacturing
Additive manufacturing
Prototyping: 3D print, laser, CNC
Parametric design
Rotomoulding and costing
Entrepreneurship and marketing
Presenting and negotiating

LANGUAGES

Dutch — native
English — near-native
French — good
